

Solution Brief

PLANVIEW RPM SOLUTIONS

Speed Delivery, Benefits, and ROI of Planview Enterprise

Do you want to get the fastest benefit from your Planview solution while minimizing risk?

Do you want to accelerate cross-organizational adoption of Planview Enterprise?

Do you want Planview pros at your side during implementation?

You Want Planview RPM Solutions

You want the advantages of Planview Enterprise® – and you want them fast. So we created the packaged, fixed-price Planview® Rapid Portfolio Management™ (RPM) solutions. These integrate the best of Planview software, enablement, and deployment options to quickly deliver the benefits of robust portfolio management.

Accelerate Delivery and Benefits

RPM solutions provide **pre-built configurations of Planview Enterprise** to help you quickly improve your:

- Project portfolio management
- Organizational capacity management
- Product portfolio management
- Strategic investment optimization
- Strategy and execution integration
- Service portfolio management
- Plus a custom tailored option just for your needs

Rapid Deployment, Low Risk

RPM solutions get you up and running quickly. Supporting your pre-built configuration of Planview Enterprise, our rapid deployment approach includes:

- **SaaS On-Demand deployment** to further speed your path to value with instant solution access.
- **Planview PRISMS® Best Practices**, mapped to your specific RPM solution, ensuring that your team is using the best methods to maximize its investment.
- **PRISMS E-Learning** to give your users the ability to learn what they need, when they need it.
- **Planview Platinum Service and Support Program**, our premier level of Customer Care, so you get fast answers to all your questions.
- **The Planview Remote Advisory Service**, a unique consulting and support offering that bridges traditional incident-based support and on-premise consulting.
- **A Comprehensive Launch Program**, which assigns a team of experienced experts to your roll-out for a smooth implementation, positive user experience, and fast adoption.

Get the benefits of Planview Enterprise fast
